

8 March 1984

MEMORANDUM FOR THE RECORD

Subject: Training Material on Key Lists received from
Marshall Foundation

Reference: GCM Foundation letter on this subject dtd 29 February 1984,
s/John N. Jacob

1. Subject material was reviewed by [] SCAO. He checked with the OPI of this type of material (in S3). They stated that this material should be treated as FOUO. Curt said that S was not interested in receiving the material.
2. [] GC, was shown the letter and the material. He was on the fone with Jacob on another matter, and determined that GCM Foundation had no interest in the material.
3. The letter and material was also shown to Mike Levin, Q43.
4. I recommended the following action:
 - a. Writing this M/R containing the information noted above;
 - b. Making an inventory of the material itself.
 - c. Destroying the material.
5. Both Mike and Fritz concurred.
6. A discussion with Mike regarding an appropriate reply to Jacob ensued. I will write a letter telling him that the material he was concerned about had been taken care of.
7. The inventory of the material destroyed is attached.

R. G. FISHER
